

Add a truly dynamic element to your event with our **INTERACTIVE SPORTS QUIZ**

Our self contained quiz adds a whole new level of delegate interaction to your event and provides a competitive focal point for attendees to focus on.

Our professional host will welcome and introduce the evening, explaining the format and competition.

The rounds will normally be spread across the evening with scores updated periodically. These rounds include a mixture of sport related content, tailored to suit the audience profile. The quiz can be played in either a team or individual format depending upon numbers of attendees.

Each round and it's questions are projected onto a large screen with delegates answering them on pre-produced (and if required branded) answer sheets.

Audio and visual media are combined to ensure the quiz is slickly presented:-

Video clips -

What Happens Next questions

Audio clips -

Guess the Sporting Theme Tune questions
