

Suitable for 20 to 200 people

Stock Exchange Game

This is a fast moving action simulation of the London Stock Exchange, as it used to be. Shares trade frantically between syndicates & through the "ShareDeal" brokers at our Share Shop where the current prices are displayed on computer screens.

Track the developing stories in newspapers and on the TV news to guide split second decisions on the purchase or disposal of your shareholding.

A fun & stimulating team activity.
